

Designed for Native Speakers of Arabic

TALA is the first benchmark Arabic test built to Arabic Language Arts standards. TALA tests the **Vocabulary**, **Reading** and **Writing** skills of native Arabic speakers in grades 3, 4, 6, 7 and 8. As a twice-yearly benchmark assessment, the test provides an evaluation of student progress and program effectiveness.

Powerful Benchmarking Data Improves Student Outcomes

TALA scores provide you with the evidence you need to monitor student progress and target specific areas for improvement. TALA's robust, detailed reporting data allows you to give personalized, constructive feedback to each student. TALA's computer adaptive design provides individualized assessments targeted to each student's ability level. The Reading test is administered via the web on a computer or tablet, with results available immediately. The Writing test is paper and pencil and scored by certified native Arabic speakers. Reports provide sub-scores for each standard assessed, as well as combined scores for both Reading and Writing.

Test Highlights:

- Available for grades 3, 4, 6, 7, 8
- Web-based and computer adaptive
- Instant results for Vocabulary and Reading
- Writing test is on paper and scored by trained raters
- Aligned to Arabic Language Arts Standards
