# How to Check Your Internet Connection
# for the TALA Test

1. Go to http://www.speedtest.net, and click on the **Begin Test** button.

2. Speedtest will automatically calculate your network's download and upload speeds.

3.  When the test is complete, it will report three important pieces of information. The **Ping Speed**, the **Download Speed**, and the **Upload Speed**.

The **Upload Speed** is the most important of these numbers. In this picture, the Upload Speed is 1.26 Megabits per second (Mbps). **The Upload Speed will need to be at least 0.50 Mbps in order to support 50 simultaneous test takers, or 1.00 Mbps to support 100 simultaneous test takers.**

4. Before closing your browser window, please click on the **Share This Result** button,

hen click on t the **Copy** button and email the SpeedTest results link to **info@diglossia.net**.
